

Great Event Coming Up at Fuqua for those interested in GRI!

**Leading EDGE Seminar:
"Stakeholder Engagement & Sustainability Reporting in Practice"**

February 16, 2011, 3:00-7:00 pm

The prevalence of sustainability reporting is growing and has converged around the Global Reporting Initiative (GRI), the world's most widely used framework. The objective of this seminar is to offer participants greater insight into the world of reporting, drivers, trends, and common challenges faced by reporting organizations. Skilled trainers will provide an overview of sustainability reporting in practice and interactive exercises that allow students to explore stakeholder engagement and "materiality", two core components of the GRI framework. No prerequisites are required--just a general understanding of GRI and sustainability/CSR Reporting.
