

Advanced topics

Advanced topics [TO BE DEVELOPED]

1. Meta-analysis methods
2. Social network analyses
 - a. SSRI short videos and R code: <https://www.youtube.com/watch?v=Qj2uWpYsdcM&iist=PL1M5TsfDV6Vs7tnHGNgowEUwJW-O8QVp5>
 - b. Write to Professors James Moody and Craig Rawlings, and ask, "I'm a [grad student / undergrad / research assistant] in Charlie Nunn's lab and want to learn more about social network analysis. What courses or workshops are coming up that I could take part in?"
3. Phylogenetic comparative analyses
 - a. For an introduction, read Nunn (2011), "The Comparative Approach"
4. Accessing data in online databases (mainly MySQL).
 - a. Command line vs. GUIs
 - b. Structured Query Language (SQL)
